RE: Withdrawal of Part A (Protective Filing)  
FACILITY NAME: Hysan Corporation  
USEPA ID NO.: ILD 055 398 028 ✓

Dear Mr. Grahong,

This is to acknowledge that the United States Environmental Protection Agency (USEPA) has completed its review of your Part A Hazardous Waste Permit Application and your letter of May 14, 1982, requesting the withdrawal of your permit application. According to the information which you have submitted, your facility has not, since November 19, 1980, treated, stored, or disposed of hazardous waste, and this permit application was a protective filing. It is the opinion of this office, based on the information submitted, that your facility is not required to have a hazardous waste permit under Section 3005 of the Resource Conservation and Recovery Act at this time. Please be advised that you must still comply with all applicable State and local requirements.

You will retain your USEPA Identification number if you notified as a generator or transporter of a hazardous waste.

Please contact the Technical, Permits and Compliance Section at (312) 353-2197 for assistance if you have any questions. Please refer to "Withdrawal of Part A (Protective Filing)," in all telephone contacts and correspondence on this matter.

Sincerely yours,

Karl J. Klepitsch, Jr., Chief  
Waste Management Branch

cc: E.S. Berger, Vice President-General Counsel
